Simplistic to elaborate designs, functionality, durability and variety of the dishes determine the important aesthetic value which raises the natural beauty in our homes.

Simplistic to elaborate designs, functionality, durability and variety of the dishes determine the important aesthetic value which raises the natural beauty in our homes.

# Quality first!

In our current production **we pay special attention to the quality** of our products, which is supervised by the Quality Control staff and the Chief Technician.

The Laboratory employees control the quality of the raw materials used in the production, in order to use only raw materials of the highest quality. After the inspections at each stage of production we eliminate the shortcomings already at each stage.

Cultivated traditions combined with great care and attention to the high quality of our products results in their exceptional aesthetic and functional qualities, which are confirmed by the many awards and distinctions.
